Why does your home theatre need Dolby Atmos Audio?

Dolby Atmos offers state-of-the-art sound technology to deliver unparalleled audio. Putting the listener inside the audio experience, listeners will be able to clarify different moments simply by sound. This makes a Dolby Atmos ideal for any audiophile- enjoy films the way the screenwriter and director intended or experience the gaming world the way the designers and programmers envisioned it. Additionally, Dolby Atmos is a major asset for visually impaired people to be able to enjoy their favourite media. Taking the place of sight to follow the story, experience news reports as if you're standing by Niagara Falls or immerse yourself in your favourite hits the way the musician intended their songs to be experienced.

Dolby Presents: The World Of Sound | Demo | Dolb...

Storytelling with Sound

By placing sound in different places in the room, thanks to the detailed directional effects, sound plays a pivotal role in storytelling with the Sierra Plus (<https://www.majority.co.uk/soundbars/sierra-plus/>). Almost taking the place of vision, the Sierra Plus Dolby Atmos Soundbar and Wireless Subwoofer (<https://www.majority.co.uk/soundbars/sierra-plus/>) is a fantastic option for people with vision loss. Allowing a sound to take the lead in how an audience both understands and connects with a storyline means restricted vision or people who are completely blind won't have their entertainment experience hindered.

Multi-Connection

Whether you cut off communication with the outside world when David Attenborough is on or music as much a part of you as your pancreas or your nose, the Sierra Plus revolutionises how you experience home entertainment. Designed to transform music, movies, gaming, documentaries, the Sierra Plus boasts multiple connectivities. To take advantage of the Sierra Plus's Dolby Atmos surround sound connect via HDMI. To stream your favourite playlists across Spotify, Apple Music, Tidal Music and many more streaming services, the 5.0 Bluetooth Connection pairs and plays with any Bluetooth-enabled device and delivers a high-quality connection. Additionally, the Sierra Plus connects via AUX-in, Optical and USB.

400-Wattage with a Dynamic EQ

MAJORITY Sierra Plus 2.1.2 400-Watt 5.0 Bluetooth TV Soundbar and Subwoofer with Dolby Atmos Audio

(<https://www.majority.co.uk/soundbars/sierra-plus/>)

Let's bring Rio de Janeiro to the living room! With a whopping 400-wattage, the Sierra Plus delivers vibrating sound to fulfil your home entertainment needs in all its audio glory. The Sierra Plus is designed to offer a personalised listening experience. With a Dynamic EQ, customise your entertainment across Music, Movies, News, and 3D Mode. Feel the vibrations of every musical note. Experience live news reports as if you're a news correspondent. Step into every movie from *Who Framed Roger Rabbit* to *The Silence of the Lambs*. Whether you want to connect your Nintendo Switch to fill the room with classic games or immerse yourself in the Golden Era of Cricket, use the personalised sound settings for the ultimate home cinema experience.

Film & TV

From Netflix to Hulu to Amazon Prime to DisneyPlus, the rise of streaming sites has catapulted how we experience film and television. With more and more people opting for purse-friendly streaming subscriptions over cable and sky connection charges, streaming is skipping the cinema and releasing content directly onto streaming sites. Netflix's *Roma* won the 2018 Academy Award for Best Foreign Film and *The Irishman* (2019) starring Robert De Niro, Al Pacino and Joe Pesci gained critical acclaim. Similarly, DisneyPlus' *Soul* (2020) won the 2021 Academy Award for Best Animated Feature and Original Score and *Black is King* (2020) won the Grammy Award for Best Music Video plus the highly anticipated filmed stage production of *Hamilton* was released directly onto the streaming site.

The increasing success of streaming services and their original content means home entertainment is in high demand. With the Sierra Plus's Dolby Atmos surround sound plus its wireless subwoofer, upgrade how you experience both Hollywood classics such as *An Affair to Remember* and *Gone with the Wind* and modern cinematic masterpieces including *A Nightmare Before Christmas* and *Die Hard*. With four channels you can fill the room and scene by scene immerse yourself in every vibrating moment.

Feel the Music

For those of us that feel the music rather than merely hear it, the Sierra Plus allows you to experience music the way songwriters and musicians do when they first write and record their art. With Dolby Atmos, you are placed inside the song in a new spatial way, revealing every detail of the music with unparalleled clarity and depth.

Maximise your home entertainment with the Majority Sierra Plus. Let us join the party with you on social media! Don't forget to tag us on all major channels. @majorityaudio #majorityaudio #majoritysierraplus
