Slim & Sleek Design

Sleek and understated the Bowfell Plus is the home audio system every budding audiophile needs! The clutter-free design not only uses minimal space, it delivers rich and deep audio, from the small but mighty soundbar and a powerful subwoofer.

Long-Throw Subwoofer

Delivering high-definition sound, fill the room with your favourite sounds for a captivating listening experience. With a combined wattage of 100W, the long-throw subwoofer will transport you into your entertainment with deep and enhanced bass.

Looking for room-raising sound? Experience the power of vibrating sound in any room, big or small, with the Majority Bowfell Plus's extended cable length of 4.5m. Perfect for the gamer who wants to immerse themselves in their surroundings, the festival lover who wants to relive the mosh pit or the film fan chasing that fly on the wall experience, the extended cable is every audiophile's ticket to enveloping audio.

Multi-Connection including Bluetooth

The Bowfell Plus elevates your listening experience for all occasions. From Bluetooth and USB input to RCA, Optical and AUX ports, the Bowfell Plus upgrades your phone, PC and TV entertainment using a wide range of connectivity. Whether you want to step up your home office's audio, maximise your gaming room's sound system or maximise how you listen to music, the Bowfell Plus is the audio transformation you've been waiting for.

The ideal sound system for TV, Gaming and Music, the Bowfell Plus features Bluetooth connectivity. Simply pair the Majority Bowfell Plus with a Bluetooth-enabled device including a smartphone, video console or PC, and experience a heightened sound quality. Be it podcasts, playlists or political news, using the 5.0 Bluetooth connection, tune into your favourite audio and surround yourself with your topic of choice.

Equaliser

Be in total control of how you listen to music, movies, TV box sets and much more. Personalise your listening experience, across Movies, Music and Dialogue to experience every cinematic and laugh-out-loud moment how the filmmakers themselves intended.
