Product description

Take your audio to new heights with the Majority Sierra 2.0.2 280-Watt Bluetooth Soundbar with Dolby Atmos. Immersing the listener in full Dolby Atmos, the Sierra is designed for the audiophile who lives, breathes, and eats sound. With up-firing speakers and powerful main speaker drivers, the Sierra brings a new dimension to home audio. Delivering an engaging cinematic experience, personalise your listening experience across Music, Movies, News & 3D Mode.

The theatre-quality sound offers expansive audio and allows the listener to feel every sound. A dream come true for any film buff, the Sierra takes you into your favourite films. With the state-of-the-art sound technology, feel the impact of Hollywood's best shipwreck stories or every side-splitting laugh-out-loud scene, as if you're in the acoustical sweet spot in the cinema. Placing sound at specific places, a listener can identify what's happening and where simply by sound, allowing for a elevated entertainment experience.

Perfect for the dedicated music fanatic, Dolby Atmos transforms ordinary listening into a charming audio experience. With Dolby Atmos Music, put yourself inside songs in a new spatial way, and explore every detail of the music with unparalleled clarity and depth. Whether you want to be close enough to the orchestra, to witness a conductor's instructions or feel the magic of festival life, using the Majority Sierra music soundbar, pump up the party and feel the vibrations.

Transform your gaming setup for maximum entertainment with the Majority Sierra Soundbar. Whether you're living out your NASCAR dream or fighting in the trenches, using the Sierra's surround sound combined with sound appearing at specific positions in the room, allow sound to be the ultimate secret weapon. Hearing your competitor's location before you see them, experience every adrenaline-building moment at full capacity, with the Sierra's vibrating sound.

Great sound

Reviewed in the United Kingdom on 1 January 2022

Verified Purchase

So easy to set up just plug your hdmi cable into the hdmi ports on your tv and soundbar and any other equipment you want to add into your tv's remaining hdmi ports and that's it

Pretty good

Reviewed in the United Kingdom on 31 January 2022

Verified Purchase

Got this as my second soundbar, previous one was just a cheap effort.
Looked at sonos ect and thought I done know if I want to spend £400 on an extrafor my tv,
So plumped for this, decent price, UK company.
The sound is really good,
dolby atmos movies are brillant you can really hear the difference.
I went to my brothers he has the same tv as me a samsung 55 inch
My god it sounded rubbish compared to having this soundbar.
Decent bit of kit easy to set up, nice price for the quality of sound.
Only minus I have found is a slight delay in sound when turning over onto say Netflix and back to TV.
Wouldn't mind adding a subwoofer at some point in the future, but couldn't see one on the majority site.
The bass is fine ,by the way just to add the icing on the cake really.
To some up, ups a good bit of kit for the price,
we'll made.

Quality item and value for money - very pleased

Reviewed in the United Kingdom on 24 January 2022

Verified Purchase

I was looking to get something for my (almost teenage) daughter as she's getting into her Netflix, Disney Plus, Xbox etc and also her music but doesn't own CDs and DVDs like I did back in the day ... so I got her a new TV and wanted something to complement that. I ordered a 55" (from another retailer, only for convenience of payment options) and was offered £200 off a £450 Samsung soundbar ..

Outstanding Piece of Kit

Reviewed in the United Kingdom on 17 January 2022

Verified Purchase

I was on the market for a new Soundbar after my old Soundbar gave up on me and with the wealth of manufacturers out there to get your money, I wanted to go for the best value for money and sound in that respect. I decided to purchase the Majority Sierra Soundbar, being already an owner of the Majority Oakington Stereo System and based on the user experience and sound quality
