## Product Description

Dolby Soundbar

Wireless Subwoofer

Wireless Satellite Speakers

Powered by Dolby Audio, the Everest generates a game-changing and all-around enveloping soundscape. With detailed directional effects feel sound at different parts of the room to transform how you experience music, film, television, and gaming.

With a 5.25-inch driver, the wireless subwoofer will surround you with powerful, dynamic, and warm bass. Raising the standard for home entertainment, pump up the bass as loud as you like, without the worry of distortion. Designed to fill the room, the Everest's booming subwoofer blends seamlessly with the speakers to unleash powerful bass.

Using the detachable rechargeable speakers, absorb the Everest's Surround Sound system in the room of your choice. Move as far as 20m to pump up the party throughout your home with clear and crisp audio. Rechargeable via Micro-USB, enjoy up to 8 hours of playback with the 16.8cm compact speakers.

## Film

Bring the cinema to the living room with the enhanced home entertainment system that is the Everest. From classic horror to 90s romcom's to dystopian sci-fi, immerse yourself in cinema-quality surround sound. Absorb entertainment using the combination of the Everest's subwoofer, detachable satellite speakers and Dolby Audio Surround Sound. Experience every nail-biting, tear-jerking, mouth-dropping moment on the edge of your seat as sound allows you to step into the story and experience film and television as if you're an extra on set.

## Sport

Upgrade how you experience sport with the Everest. Immerse yourself in the glory of the game be it tennis, football, basketball or many more sports. With superior audio quality, the detailed directional effects allow you to go beyond ordinary listening to experience sport's moments of glory as if you're a player of the team.

## News

From erupting volcanoes to cross-country marathons, experience the latest news reports as if you're in the midst of the action. Catapult yourself to the scene of the crime using the powerful bass to fill the room with audio and feel every vibrating moment.

## Gaming

Enjoy the ultimate advantage over your competitor when you play games with the Everest. With Dolby Audio' surround sound, project sound into the 3D gaming space and hear your competitor before you can see them. Whether you're settling in for a weekend of console gaming, relishing in an evening of multi-player online gaming or playing a game on your mobile, allow the Everest Dolby soundbar to give your performance an extra edge.

## Music Streaming

Whether you're hosting a family party, using music to relive your teenage years or enjoying the best parts of musical history on a vinyl player, immerse yourself in sound for a dynamic musical experience. From Broadway hits to 80s pop to 50s rock 'n' roll, the Everest delivers the ultimate listening experience by projecting your tunes into the 3D space. Using spatial audio, allow yourself to be cocooned inside the song and let the magic of music take over. With the detailed directional effects hear your streamed playlists in countless parts of the room.

## Documentaries

Enjoy the sunset alongside the lion's pride or walk with the polar bears in the arctic snow using Dolby Audio. Experience the nail-biting and heart-warming moments of nature with the Everest's surround sound to fill the room with the wonders of the world.

### Awesome Soundbar! A\*

Reviewed in the United Kingdom on 13 January 2022

**Verified Purchase**

I absolutely love this sound bar!  
Wireless surround sound with no wires to hide!  
Attach speakers to the soundbar (they are attached on the picture) when not in use to charge speakers for your next 5.1 dolby digital movie.  
Subwoofer delivers a good punch!  
No setup! Plug n Play instantly!  
Listen to your favourite tunes with a quality sounding system.

Fit to the wall with ease with built in keyholes which slide over 2 screws in the wall.  
Adjusted all speaker and Subwoofer levels with ease on the remote control.  
Bluetooth, plug in a standard headphone jack, optical fibre or hdmi (arc).  
Everything is thought out for you.  
I have no dislikes with this system!  
Love it love it love it!

### Top quality sound bar

Reviewed in the United Kingdom on 23 January 2022

**Verified Purchase**

I purchased this because my TV speakers are terrible and I wanted to be able to listen to films and music with a bit more clarity. I have not been disappointed, the quality of sound is amazing, it hits all of the ranges from the high trebles all the way down to the low basses. The bass is very powerful and can shake the sofa you are sitting on! (I have had to turn it down as one of my dogs is scared of it!) I normally use it on volume level 2 or 3 (it goes up to 22 I think) as this is a comfortable level for myself, but even on higher volumes the clarity is spot on. I have used it with the AV plugs (red and white) as my TV doesn't have a HDMI output unfortunately, this is good enough to give a real quality sound experience, the surround sound is very real and can be adjusted via the remote, for example I have turned the volume up on the satellite speakers and turned the front bass most of the way down, you can really immerse yourself in a film!

### Serious piece of Kit! Great sound and finish!

Reviewed in the United Kingdom on 23 January 2022

**Verified Purchase**

I was looking to upgrade my current unit to a 5.1 surround sound soundbar system and so far i've been super impressed with this purchase. At £230 my only reservation was that it seemed quiet cheap for such a lot of spec however this quickly disappeared.

On arrival it was packaged really well and lots of info from the brand. I opened up the unit first reaction was the build quality is good. The finish on the subwoofer is especially nice and the satellite speakers are just the right size.

Set up was super quick and easy. I connected using optical cable as this is what i previously had set up on my old soundbar. I connect the main soundbar unit and the subwoofer and they connected to each other automatically.

I firstly connected the satellite speakers to the main soundbar unit. You take off the end

### Amazing

Reviewed in the United Kingdom on 18 January 2022

**Verified Purchase**

Arrived today, been using it with rear speakers detached for couple hours and overall impressed, I've never owned a 5.1 before so I can't compare to anything except JBL STUDIO MONITORS with audioengine DAC (almost a £1000 set up). I can guarantee the sound quality is just as good as top tier speakers out there, one issue I've found is that the sound bar feels very directional to front of it. Best to setup it in level with head/ears, sadly my setup makes it only possible to have the soundbar at chest level; it's a PC desk setup.

I feel that if you use this system with HDMI ARC cable you may benefit from a richer experience, sadly since this is for pc use, I am limited to Toslink connection.

Single major flaw I've found is that there is no dedicated software from everest which could increase rear speakers volume individually; rear speakers feel slightly too quiet to feel the

**absolutely great sound**

Reviewed in the United Kingdom on 4 January 2022

**Verified Purchase**

received today, connected and was delighted, the sound is powerful and the bass is extraordinary, we watched a movie and a cartoon and it's great home theater sound, be careful I connected it with HDMI (ARC) cable! it's not included, it's my stock, their cables I do not have such inputs in the TV!!!
